

Meridian Industries - Finance & Expense Policy

1. Business Travel Expenses

Employees who incur approved business travel expenses (flights, accommodation, meals, local transport) may claim reimbursement. To claim reimbursement for business travel expenses: submit claims through the expense portal with receipts within 30 days of the travel. Claims submitted after 30 days require additional Finance approval and may be rejected without a valid justification.

2. Approval Limits

Travel expenses under \$500 require manager approval only. Expenses of \$500 or more require both manager and Finance Business Partner approval prior to booking where possible, or prior to reimbursement where pre-approval was not practical.

3. Non-Reimbursable Items

The Company does not reimburse personal entertainment, alcohol beyond a reasonable meal allowance, or upgrades to travel or accommodation class beyond the Company's standard travel tier, except where medically necessary and pre-approved.
