

Meridian Industries - Social Media Usage Policy

1. Personal Use of Social Media

Employees are free to use social media in a personal capacity. However, when posting content that could be associated with the Company, employees must exercise good judgment and professionalism at all times.

2. Rules for Company-Related Content

The core rule for social media usage regarding company matters: do not disclose confidential information or represent the Company without authorization. This includes unreleased product details, financial results prior to public disclosure, internal communications, and any statement that could reasonably be interpreted as an official Company position unless the employee is explicitly authorized to speak on the Company's behalf (e.g., by Corporate Communications).

3. Enforcement

Violations of this policy are handled under the same disciplinary framework as other breaches of the Code of Conduct and may result in disciplinary action up to termination, particularly where confidential or price-sensitive information is disclosed.
